Digital photography is a form of [photography](#) that utilizes [digital](#) technology to make [images](#) of subjects. Until the advent of such technology, photography used [photographic film](#) to create images which could be made visible by [photographic processing](#). By contrast, [digital photographs](#) can be displayed, printed, stored, manipulated, transmitted, and archived using digital and [computer](#) techniques, without chemical processing.

Digital photography is one of several forms of [digital imaging](#). Digital images are also created by non-photographic equipment such as [computer tomography](#) scanners and [radio telescopes](#). Digital images can also be made by [scanning](#) conventional photographic images.

Sensors and storage

Sensors read the [intensity](#) of light as filtered through different [color filters](#), and [digital memory devices](#) store the digital image information, either as [RGB color space](#) or as [raw data](#).

There are two main types of sensors:

- [charge-coupled device](#) (CCD) – photocharge is shifted to a central charge-to-voltage converter
- [CMOS](#) sensors ("[Active pixel sensor](#)")

Nearly all digital cameras now use built in and/or removable solid state [flash memory](#). Digital camcorders that double as a digital still camera use flash memory, discs and internal hard disks. For a time floppy disks and mini-CDs were used in early digital cameras such as the [Sony Mavica](#) range.

[[edit](#)] Multifunctionality and connectivity

Except for some [linear array](#) type of cameras at the highest-end and simple [web cams](#) at the lowest-end, a [digital memory](#) device (usually [flash memory](#); [floppy disks](#) and [CD-RWs](#) are less common) is usually used for storing images, which may then be transferred to a [computer](#) later.

Digital cameras can take pictures, and may also record sound and video. Some can be used as [webcams](#), some can use the [PictBridge](#) standard to connect to a printer without using a computer, and some can display pictures directly on a television set. Similarly, many [camcorders](#) can take still photographs, and store them on [videotape](#) or on [flash memory cards](#) with the same functionality as [Digital Cameras](#). **To be Cont.**

Success of Members:

In **2nd Asansol International Salon 2011**, Our member Shri Nemji Chedda had 1 Acpt, Shri Samir Mohite, APSI, FFIP, AFIAP had 2 Acpt, Dr. Avanish Rajan had 2 Acpt, Shri P. G. Shivalkar, Hon PSI had 3 Acpt and Shri Umakant Madan had 3 Acpt.

In **4th All India Salon 2011 of NBPC**, Our member Shri Nemji Chedda had 2nd Prize & 7 Acpt, Shri Ravindra Deodhar had 2 CM & 7 Acpt, Shri Vaibhav Jaguste had 9 Acpt, Shri R. B. Pednekar, FFIP had 3 Acpt, Shri Cyrus Shroff, Hon PSI, AIIPC had 1 CM & 3 Acpt, Shri Prasad Pawaskar had 2 Acpt, Dr. Avanish Rajan had 10 Acpt, Shri Sunil Parab had 2 Acpt, Shri Shirish Jhaveri, Hon PSI, FFIP, AIIPC had 1 CM & 4 Acpt & Shri Sureschandrs Tarkar had 1 Acpt.

In **FIP Inter Club Contest, 2010**, Shri Ganesh Ambokar had 1 Acpt, Shri Nagesh Sakpal, APSI had 1 Acpt, Shri Samir Mohite, APSI, FFIP, AFIAP had 1 Acpt, Smt. Kalpana Shah, APSI had 2 Acpt, Shri R. B. Pednekar, FFIP had 2 Acpt, Shri Sandeep Wairkar had 2 Acpt, Shri Vaibhav Jaguste had 2 Acpt Dr. Avanish Rajan had 1 CM.

In **Welsh International Salon 2010, UK**, Our member Shri Samir Mohite, APSI, FFIP, AFIAP had 1 Acpt.
